## New Needs

More information in less testing time

- Concise and focused achievement assessment ideal for use in reevaluation or as a screener
- Appropriate for use with the Response-to-Intervention (RtI) Model
- Appropriate for identifying students “at risk” in reading, writing, and math
- Clearly interprets proficiency levels (e.g., “limited” or “very limited”)

The Brief Battery Table of Scores clearly identifies limitations in reading, math, or writing.

CLUSTER/Test	GE	Proficiency	RPI
<b>BRIEF ACHIEVEMENT</b>	2.9	Limited	61/90
<b>BRIEF READING</b>	2.5	Limited	35/90
<b>BRIEF MATH</b>	4.2	Average	89/90
<b>BRIEF WRITING</b>	2.1	Limited	37/90
Letter-Word Identification	2.5	Very Limited	11/90
Applied Problems	4.4	Average	93/90
Spelling	1.7	Very Limited	12/90
Passage Comprehension	2.3	Limited	43/90
Calculation	4.1	Average	90/90
Writing Samples	2.4	Limited to Avg.	77/90

SAMPLE TABLE OF SCORES: *WJ III Tests of Achievement, Form C/Brief Battery*, norms based on grade 4.1

## New Norms

Includes the *WJ III Normative Update* with updated *Compuscore®* and *Profiles Program, Version 3.0* and *Technical Manual*

- 8,782 subjects selected for inclusion
- A recalculation of the *WJ III* normative data based on the updated 2005 U.S. census statistics

## New Test Records

- Ideal for recording and scoring test item responses and documenting examiner’s observations of behavior during testing
- Two types of test records are available:
  - **Complete Test Record:** Designed to accommodate the needs of examiners who will use several, many, or all of the nine tests
  - **Screening Test Record:** Designed for use when only the three tests included in the Brief Achievement cluster are required
