Thank you for your interest in taking the Woodcock-Johnson test with us!

Depending on your student, the test may take up to 90 minutes to complete and costs a total of \$90 for the basic battery. You must pay to register and the payment is non-refundable. Any extended time spent over 90 minutes testing will be charged at the rate of \$25 per half hour. **Please let us know if you expect your student needs extended time or any other accommodation.**

The basic battery includes the following subtests: calculation, applied math problems, letter-word identification, spelling, passage comprehension, calculation, writing samples, and fluency in the areas of reading, math and writing. Some children will do some testing simultaneously and then each will finish up the test privately. We will send you a schedule two weeks prior to test day.

If you would like for us to do the Academic Knowledge Package (Science, Social Studies, and Humanities) it is \$25 extra.

A detailed report and description of test scores will be generated immediately after testing. Each WJ session includes a 10 minute consultation with the test administrator. Additional consultation time may be purchased at the rate of \$25 per half hour and may be conducted over the phone. A supplementary report including instructional strategies and recommendations for struggling students or those working below average in areas is also available for \$15.00 and can be mailed to you after the appointment.

Once we receive the requested information below and payment, we will send you an email receipt. People will be scheduled on a first come, first served basis. We will try to honor everyone's requests for appointment times.

You may remain in the waiting area but please bring a quiet activity for the children, or you may leave and return if you provide us with your cell phone number. You should return 1 hour after the appointment start time because we don't want children waiting alone while waiting for their private part of the testing session.

Please feel free to contact us at 919-387-7004 or at info@triangleed.com with any questions. You might want to practice a math speed drill with easy addition, subtraction or multiplication if your child is unfamiliar with that but otherwise there really isn't a way to "practice" for the WJ.

Thank you for taking the WJ with us. We look forward to serving you.

Sincerely,

Debbie Thompson and the Triangle Assessments Team
