

When to Expect Results

Machine scored results: We make every effort to return the test results as soon as we can. There is one central scoring agency for each test publisher and they have told us to tell you that you should have your results within 6 to 8 weeks after we receive your materials for scoring. If information is lacking on your answer sheet, there might be a delay in your receiving your results so please follow the directions on your packing slip on How to Fill Out the Test Answer Sheets. Please do not call us earlier than 8 weeks after we have received your materials because we never know how backed up the central scoring agency might be. Also – please put staff@triangleed.com on your accepted email list so that your scores do not land in your junk or spam folders.

Hand scored results: Available year round. Will be emailed within 1-2 weeks from the time we receive your testing materials.
